evidence

Feb

INTERPRET
student thinking

Mar

RESPOND
instructionally

Apr

IMPROVE &
SUSTAIN

FOUR QUESTIONS THAT WILL GUIDE OUR WORK

STANDARDS

What should students learn?

EVIDENCE

How will we know and respond?

CURRICULUM

How well do our materials support it?

LEARNERS

How will we support and extend learning?

Bring your curriculum, lessons, tasks, assessments, and questions. Each session pairs focused learning with structured time to apply it to your own context alongside other Montana Educators.

Each month, participants will leave with a standards-aligned adjustment they can immediately apply to their own curriculum, instruction, or assessment.
